

1. Why have you decided to go virtual given the recent Government roadmap which eases restrictions by May?

The safety of our participants and volunteers is paramount. Although the intention is for easing of restrictions should England stay on track within the Government plan, we still have to ensure the race is safe for participants and volunteers.

This decision has not been taken a but we decided that because the race is planned for early on in the roadmap as a local race, run solely by volunteers, we could not guarantee a safe race in the timescales allowed.

We do however still want to encourage ladies of all abilities to challenge themselves to take on the 5 mile distance and will do this via the virtual Hogsmill5 for 2021. The safety of our participants and volunteers is paramount.

Although the intention is for easing of restrictions should England stay on track within the Government plan, we still have to ensure the race is safe for participants and volunteers.

This decision has not been taken lightly but we decided that because the race is planned for early on in the roadmap as a local race, run solely by volunteers, we could not guarantee a safe race in the timescales allowed.

We do however still want to encourage ladies of all abilities to challenge themselves to take on the 5 mile distance and will do this via the virtual Hogsmill5 for 2021.
